

profit in recommending the worthless, for the reaction in the minds of those who buy and are deceived is pointedly against everything sold by such a dealer.

Hence, the force of the following voluntary letter, which is based upon the conscientious con-viction formed from the long and cautious experience of a leading drug house of Boston, represents in every line a most important and valued revelation: "Boston July 11, 1887.—The Charles A. Vogeler Co.—Gentlemen: Many preparations are placed before the public, and for a time at least they have a large but temperary sale—large, because of the extensive advertising; temporary as the suffering class soon realize that the compound possesses but little merit. Not so with St. Jacobs Oil. Its success has been constant from the start, and to-day we regard it as one of those standard remedies that our trade consider as absolutely essential to always. consider as absolutely essential to always carry in their stock. Personal experience and the good words of the druggists of New England all tend to prove that each year will add to its sale and well deserved popularity. Signed, Doolittle & Smith." Taking the many cases of cure, published by the proprietors, examples are given of its unvarying effects in the worst chronic cases, and there is nothing in trade which can approach its

KOREAN CHILD EN.

It must not be supposed that the children here have nothing to do but play. By far the most of the Koreans can read their own language, and a great many also know the Chinese, so that a portion of the children's time must be spent in schools. The schools here are altogether different from ours at home. You can always locate one by the noise as you pass along the street. Koreans, like Chinese, study aloud; and some say the louder the scholar's tones, the better student he is. It is easy to imagine how fifteen or twenty scholars can make the air hum. Outside of school hours these little ones have plenty to occupy their time. The girls do not go to school. They are supposed to have no need of an education. Their energies are confined to tending the baby at home, or assisting the mother in the care of her house, or else to whatever can be found in the way of armsement in the streets. The play-time of the girls is a short one, for at the age of ten to twelve they are considered marriageable, and must then be confined in the women's quarters, and thenceforward their view of the world is from a little window with a square inch or so of glass in it, or else from under the collar of the coat, worn as a veil over the head, which they wear whenever they go into the streets. The babies are cared for in much the same way as those in Japan, tied on the backs of the older children, who play about the gutters or where their faucy takes them, in happy indifference to the load they carry. Thus tied on, the babies sleep or cry or laugh, with but little attention from the older children carrying them around. It is not at all unusual to see a boy flying a kite while the baby on his back gazes at the bright thing in the air, or sleeps with its little head thrown back to a position where nervous exhaustion and nervousness from dislocation of the neck seems immi-

By far the most popular amusement is that of flying kites. To fly the Korean kite involves an amount of skill far exceeding that called for by the American species. The name given them is "yun," and the things themselves are of peculiar construction. They are nearly square, constructed of very light pieces of wood or bamboo, covered with tough paper, with a hole left in the center, and connected with the line by three pieces of string joined to the sides near the top and to the center of the bottom. It requires a nice degree of skill and practice so to attach the line as to make the kite fly. The kite commonly has no tail, and hence is very unsteady in its movements.

CAPT. W. D. FITCH, of Williams-burg, S. C., has a pocket-knife which signed will bring full advice.

ROBERT MILLER, JR.,
RAY 220

RAY 220

RAY 220

RAY 220 turkey gobbler killed at his place. The knife is three and a half inches long and about the size of an ordinary knife. The handle is made of dark-colored horn, and trimmed with bright metal at each end, which no doubt caused the turkey to take it for some kind of an insect. The handle of the knife shows signs of having been wasted, by digestion. The turkey was healthy and fat. Capt. Fitch's mother lost the knife. it is curious how such a large, hard instrument could be swallowed by a turkey, and how it could survive with it in its gizzard.

Among the people of to-day there are few indeed, who have not heard of the merits of Prickly Ash Bark and Berries, as a household remedy. Teas and drinks have been made of them for centuries, and in hun-dreds of families have formed the sole reliance in rheumatic and kidney diseases. Prickly Ash Bitters now take the place of the old system, and is more beneficial in all troubles of this nature.

It seems, after all, that there is as much woman as angel in the composition of the charming mistress of the white house.-Boston Traveler.

A new crusade.

The constant increase of intemperance and fancy drinking is fast disintegrating society, and good people were getting discouraged. Now, there is a great excitement over a new tasteless plant just discovered, that makes a man strong and vigorous, removes women at once, leaving no reaction. The old drinkers like it better than liquors, and the liquor dealers make the most money on it. This is the first time that the liquor dealer's pocket has had a higher bid on it by a harmless substitute. They call it Moxie. The drug stores say its sale is stupendous. It makes no morbid appetites, and all class-

The following words, in praise of Dr. Pierce's Favoritz Prescription as a remedy for those delicate diseases and sees peculiar to women, must be of interest to every sufferer from such maiadic. They are fair samples of the spont pressions with which thousands give utterance to their sense of gratitude for the inestimable boon of health which he stored to them by the use of this world-famed medicine.

\$100

JOHN E. SEGAR, of Millenbeck, Va., writes:
"My wife had been suffering for two or three years with female weakness, and had paid out one hundred dollars to physicians without relief. She took Dr. Pierce's Favorite Prescription and it did her more good than all the medicine given to her by the physice years they had been practicing upon her."

THE GREATEST

EARTHLY BOON.

The 'Favorite Prescription' is the greatest earthly boon to us poor suffering women."

Mrs. Grorge Herger, of Westfield, N. Y., writes: "I was a great sufferer from leucorrhea, bearing-down pains, and pain continually across my back. Three bottles of your 'Favorite Prescription' restored me to perfect health. I treated with Dr. —, for nine months, without receiving any benefit.

THREW AWAY

Writes: "I took eleven bottles of your 'Favorite Prescription' and one bottle of your 'Pellets. I am doing my work, and have been for some time. I have had to employ help for about sixteen years before I commenced taking your medicine. I have had to wear a supporter most of the time; this I bave laid aside, and feel as well as I ever did."

WONDERS.

Mrs. MAY GLEASON, of Nunica, Ottawa Co.
Mich., writes: "Your 'Favorite Prescription'
has worked wonders in my case.
Again she writes: "Having taken several bottlês of the 'Favorite Prescription' I have reguined my health wonderfully, to the astonish
ment of myself and friends. I can now be on my feet all day,
attending to the duties of my household.

TREATING THE WRONG DISEASE.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here or there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disorder. The physician, ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery.

Allen.

By Hysicians Fallen.

Mrs. E. F. Morgan, of No. 71 Lexington St., East Boston, Mass., says: "Five years ago I was a dreadful sufferer from uterine troubles. Having exhausted the skill of three physicians. I was completely discouraged, and so weak I could with difficulty cross the room alone. I began taking Dr. Pierce's Favorite Prescription and using the local treatment recommended in his 'Common Sense Medical Adviser.' I commenced to improve at once. In three months I was perfectly cured, and have had no trouble since. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full particulars to any one writing me for them, and enclosing a stamped-encelope for reply. I have received over four hundred letters. In reply, I have described my case and the treatment used, and have earnestly advised them to 'do likewise.' From a great many I have received second letters of thanks, stating that they had commenced the use of 'Favorite Prescription,' had sent the \$1.50 required for the 'Medical Adviser,' and had applied the local treatment so fully and plainly laid down therein, and were much better already."

JEALOUS

Of Crystal, Mich., writes: "I was troubled with female weakness, leucorrhea and falling of the womb for seven years, so I had to keep my bed for a good part of the time. I doctored with an army of different physicians, and spent large sums of money, but received no lasting benefit. At last my husband persuaded me to try your medicines, which I was loath to do, because I was prejudiced against them, and the doctors said they would do me no good. I finally told my husband that if he would get me some of your medicines, I would try them against the advice of my physician. He got me six bottles of the 'Favorite Prescription,' also six bottles of the 'Discovery,' for ten dollars. I took three bottles of 'Discovery' and four of 'Favorite Prescription,' and I have been a sound woman for four years. I then gave the balance of the medicine to my sister, who was troubled in the same way, and she cured herself in a short time. I have not had to take any medicine now for aimost four years."

EXPERIENCE. THE OUTGROWTH OF A VAST

The treatment of many thousands of cases of those chronic weaknesses and distressing aliments peculiar to females, at the Invalids Hotel and Surgical Institute, Buffalo, N.Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this greating that and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, Invigorating tonic, it imparts strength to the whole system, and to the uterus, or womb and its appendages, in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic. It promotes digestion and assimilation of food,
